Mac's Condition Remains Critical

WASHINGTON UPI — Gen. Douglas MacArthur remained in critical condition today, kept alive by a sturdy heart and a tenacious will.

The 84-year-old soldier is battling the effects of kidney failure and internal bleeding—two complications following his third major abdominal operation on Easter Sunday.

However, doctors at Walter Reed Army Medical Center said the five-star general's heart action was good. Another favorable sign was stabilizing blood pressure and pulse.

Early today, hospital sources said his condition remained unchanged.

Early Monday morning, doctors detected a decrease in his kidney's ability to flush waste from his body. At the same time, it was discovered that bleeding had resumed intermittently in his esophagus—the tube carrying food from the mouth to the stomach.

Both complications were spotted about 24 hours after a team of surgeons removed eight feet of his lower intestine which had been strangled by an open hernia. It was MacArthur's third operation in 24 days.

After taking corrective measures Monday afternoon, doctors said there had been "a slight improvement in the functioning of the kidney and some reduction in the bleeding of the esophagus."

But they said his condition "continues to be critical."

On March 23, doctors removed the aging warrior's spleen to stop internal hemorrhaging from the veins in the esophagus.

Floods Endanger Russian Plants

MOSCOW UPI — Rising floodwaters fed by the melting of unusually heavy snows today were reported threatening two cities and several vital industrial plants in southern Russia.

The government newspaper Izvestia said the flooding northern Donets River posed a serious danger to the cities of Severodonetsk and Rubzhny in the Donbas Donets Basin region—one of the nation's great industrial centers.

"The water is increasing with every hour and more flooding is expected from the north," Izvestia said.

It's Girl Scout Cookie Time once again in Putnam County! Girl Scouts from 19 troops in the county will be knocking on doors beginning April 3rd. Award Degree To First Lady

DENTON, Tex. UPI — Mrs. Lyndon B. Johnson today accepted an honorary doctor of laws degree at Texas Woman's University.

Wearing a cap and gown, the First Lady provoked a chuckle from the undergraduates when she quipped that it was "very nice" to receive a diploma "without taking the exams."

In a prepared address delivered at the convocation, the President's wife paid eloquent tribute to the talents of women and their present "unlimited" opportunities and horizons.

Without mentioning him by name, she also threw in a plug for her husband for recognizing the "abilities and intelligence" of women by naming them to top government jobs.

Red China Raps Nikita, Soviets

TOKYO UPI — Communist China today published one of the strongest attacks it has made on Soviet Premier Nikita S. Khrushchev, timed to coincide with his visit to Budapest for ideological talks.

It called on world Communist leaders to reject not only Khrushchev's leadership but the whole Soviet policy of peaceful co-existence — the view that communism will defeat the West through economic competition without the need of war. It stressed the Peking line that "violent revolution is the only road" to communism.

"Now it is the time—now it is high time—to repudiate and liquidate Khrushchev's revisionism," a 30,000-word article in the official Peking People's Daily said. Revisionism is the Communist term for retreating from the principles of communism.

The article, transmitted abroad by the New China News Agency, was the eighth in a series of attacks on Moscow policy by Peking. New China first transmitted excerpts of the attack Monday. It made it clear the Chinese seek the leadership of the Communist world.

Wallace Gets Primary Okay

INDIANAPOLIS UPI — Alabama Gov. George Wallace said today he was "glad" the Indiana secretary of state ignored the advice of the state Election Board and certified his name for the Hoosier presidential primary ballot.

Wallace's nominating petition had been challenged by his Democratic opponent in the primary, Indiana Gov. Matthew Welsh, who also leads the election board.

Mrs. Lucius Q. Snodgrass, Coughdrop Queen of America, is the representative of the Snodgrass Memorial Fund. The fund's purpose is to spread culture among depressed areas. After much discouragement with the hillbilly community, she turns the project over to her young assistant, William Bishop III. However, poor Bill is taken by the Fernheisers, especially pretty Lizzie. The play becomes more complicated as Zeke Kendall and Betty Su Fernheiser are supposed to be feuding, but instead are in love. As things progress, you will see lots of "Feudin', Fightin' and Fussin'."

Supreme Court Hears Arguments

WASHINGTON UPI — The Supreme Court began hearing arguments today on two thorny school segregation cases which may open the way for decisive rulings on southern compliance with its 1954 edict.

At issue were the racial problems created by school integration in Prince Edward County, Va., and Atlanta, Ga.

The Prince Edward case was set for three hours of debate. It centers on an appeal by Negro parents seeking reopening of non-segregated public schools in the tobacco-growing community 70 miles southwest of Richmond.

Prince Edward County was involved in the original Supreme Court edict which ruled racial discrimination in public schools was unconstitutional.

County authorities abandoned public schools rather than integrate. There have been no public schools there since 1959.

Probe Underway

INDIANAPOLIS UPI — An investigation was opened today to determine whether a declaration of candidacy in behalf of Clarence Leland, R-Hammond, for a state senate seat from Lake County was a forgery.

The secretary of state's office received a letter on Leland's personal letterhead stationery this morning saying his name was "erroneously submitted" and authorizing its withdrawal.

Office employees submitted to a handwriting expert the signature on the letter and that on the declaration and said the two appeared to be different.

Foes of Civil Rights Get Floor

WASHINGTON UPI — A mixup in signals forced Senate leaders today to suspend their arguments on behalf of the House-passed civil rights bill. Evidently a little embarrassed, the bipartisan supporters led by Democratic Whip Hubert Humphrey, D-Minn., had to announce, they were turning the Senate floor over to southern opponents for the second day for formal debate on the measure.

Humphrey and GOP Whip Thomas H. Kuchel, Calif., dominated the opening day defense of the legislation to ban racial discrimination in voting, employment, unions, education, public accommodations and use of federal funds.

2 From County Make Top Grades

Two Putnam County students have earned academic distinction on the Dean's List at DePauw University.

Having achieved at least a 3.5 (B plus) grade average out of a possible 4.0, the honor students include: Frederick Gass, son of Dr. and Mrs. Clinton Gass, 707 Highridge; and Dorothy Hutchins, daughter of Mr. and Mrs. Charles Hutchins of Roachdale.

Announcement of the first semester scholastic honors was made this week by Robert H. Farber, dean of the university.

Miss Hutchins and Gass were among 32 students in the undergraduate student body to make all A's, according to the Dean.

A deadly spring cold snap knifed through Dixie again today, dropping temperatures below freezing as far south as Florida and sending the toll in damaged peach crops soaring into the millions of dollars.

Peach growers across the Southland fired up smudgepots during the night but it was a losing battle. The freeze-coming at the worst possible time was the worst in nine years in many areas.

The temperature dipped to 29 degrees at Tallahassee, Fla., and 31 at Gainesville, early today. Myrtle Beach, S. C., reported 27 degrees and the mercury was well below freezing at Florence and Columbia, S. C., Macon, Ga., and elsewhere through the South.

Bitter cold set records in 15 states Monday and started the peach crop on the road to ruin.

Virtually all of South Carolina's crop was wiped out by Monday's cold and today's wintry temperatures were expected to put the finishing frosty touch on the damage—a \$20 million loss. Growers were practically helpless since smudging losses its effectiveness when the mercury stays below freezing for more than three hours.

Fail To Crash Florida Bar

A biracial group of visiting New England integrationists failed Monday to integrate a bar at historic St. Augustine, Fla. The group said they would try to integrate a church today. The Trinity Episcopal Church was the announced target today for the New England integrationists at St. Augustine.

Mrs. Malcolm Peabody, 72-year-old mother of Massachusetts Gov. Endicott Peabody, said she and a biracial group planned to attend communion services at the Trinity Episcopal Church this morning.

Mrs. Peabody said a Negro member of her group, Mrs. John Burgess of Newton Center, Mass., would be among the group.

Mrs. Burgess is the wife of Massachusetts bishop of the Episcopal Church.

A World Of Style

The "Jo" Look Revives A Burning Question:

By Natalie Gittelsohn

of the way things were and the way girls looked when they were neither hoydens nor hellcats nor screaming meemies but Young Ladies, down to their pristine white stockings and gleaming T-strap shoes.

IF THIS SOUNDS like a drag to you, forgive me for pointing, but you couldn't be more wrong. The "Jo" look is just about the loveliest thing to happen in a young girl's world since the Alice-in-Wonderland haircut was causing everybody's teenage daughter to remember, every night, those crucial one hundred strokes of the hairbrush. It, too, comes with long, shining, nearly waist-length hair, proper headbands, little bolero jackets, hand-span waists and plenty of ruffles and bows. The "Jo" look also revives lacy white pantaloons that peek out just a speck or so from the hems of short, full skirts (what a cozy thought for chilly afternoons!) and look simply delicious with those long white stockings and T-strap patent leather flats.

FOR MORE RAKISH TYPES, Jo herself clings to gay suspenders (as illustrated in crimson cotton, green felt or even pale blue satin for evening, worn over carefully tucked shirtwaist blouses, often trimmed with soutache braid. (You can run up a similar example ensemble on your own sewing machine in an afternoon.) She also pulls down a darling plaid boy's visor cap over her sparkling eyes and tosses a big red wool scarf — from the boy's department too — over the shoulders of her coat. Jo is a lot more audacious, fashion-wise, than those other immortal March girls, Meg, Beth and Amy, but nevertheless she positively glows with that rare and precious commodity, wholesome girlish charm.

WHOLESALE, God bless us, only means healthy; sound in body and mind. And this is indeed what Victoria Crandall's "Jo" has given us: the image, once again, of a healthy, high-spirited, wholly adorable breed of American girl.

THEATRICAL PRODUCER Victoria Crandall, who has as much as pale blonde contemporary chic as her musical comedy "Jo" who has good old-fashioned charm was talking animatedly over coffee and cookies the other day in her warm and pleasant oasis of an apartment in New York's surging Fifties. "Don't you think," she asked her visitor, "that this is the psychological moment to refresh the atmosphere with some sentiment, nostalgia and all these other not-so-outdated virtues that Americans once loved?"

MISS CRANDALL HAD good reason for her rhetorical question. The sole producer for many years of the only professional music theatre in Maine, the Brunswick Summer Playhouse, she recently opened her first show, "Jo" in New York's Orpheum Theatre. It is based on everybody's first love of a novel, Louisa May Alcott's "Little Women," and it revives a burning question: Whatever happened to girlish charm. Particularly so since — by some unwritten law of irony — it opened on the very same night that those famous (or infamous, depending on your point of view) Beatles opened at Carnegie Hall. The Beatles gave the world a shaggy-dog haircut and the spectacle of the American girl-in-a-frenzy. Miss Crandall's "Jo" gives the world a delightful and nostalgic reminder

Mrs. Victor Walter suffered painful injury to her right hand Wednesday evening, when she closed the car door on her thumb. The bones were broken and the thumb badly mashed.

Sunday dinner guests of Muriel Nelson were Mr. and Mrs. Don White of Indianapolis, Mr. and Mrs. William Harlan and Mr. and Mrs. Jewell Blue and Mike and Miss Janet McCamack.

Len Pennyworth Says:**Experienced Signer Could Hit Dotted Line With His Eyes Shut**

While waiting for the wife to try the patience of a shoe clerk up the street, I sauntered down to the bank and parked myself on the "Loafer's bench." Finding no one there in the mood to argue politics or swap yarns, I entertained myself by listening in on a young couple waiting for their first interview with a loan officer.

I grinned behind my newspaper as I recalled my first borrowing venture. I still remember what the loan official at Central National Bank said after he had worked out a plan suited to my money problem. He informed me that in meeting my periodic payment obligations I would be establishing a sound credit reputation — a valuable asset to a fellow in any community.

Throughout the years it has

seemed wise from time to time to borrow from the Central, and while it hasn't always been easy to scrape up the money, I've managed to meet my payment deadlines. Nowadays the interview has become more or less a formality, and I don't have to ask the man anymore where he wants me to sign my name. I could hit the right line with my eyes shut.

Some of these days my jittery young friends will also feel at home at the loan desk and in all other departments at the Central. I was all set to offer them some fatherly advice on the advantages of establishing their credit at a Full Service Bank, but just then the wife walked in to tell me she had decided against buying a pair of shoes and had spent the money for a hat.

CHOICE

Instead of Tradition

Just as in faith you choose your doctor, your dentist, your attorney and your church. It is equally true that in that same faith you choose that reassuring relationship with your funeral director. Perhaps this is the reason why so many more families are choosing the homelike atmosphere of the Hopkins and Walton Funeral home, the gentle understanding and the quiet efficiency of Wayne Hopkins and Ervan Walton. Wondering what decisions you will make in what bewildering hour? In the privacy of your home, may we reassure you that the almost unbelievable multitude of necessary details will be completed in reverence, dignity and beauty.

RADIOS ON ROAD

BALTIMORE, Md. UPI — A growing percentage of the radio receivers in the United States — perhaps one-fourth — are now on wheels, according to one of the country's leading suppliers of automotive radios. A record 1.4 million auto and truck radios will be sold by the Radio Division of the Bendix Corporation in 1963, and the company expects to surpass that mark next year when it delivers its 10 millionth custom auto radio.

DRIVE-IN BANK?—No, it isn't, and Oliver Brockman, sitting at his desk just as he was when this big deposit drove in, isn't quite over the shock yet. Two cars collided in front of the building in the Cincinnati, O., suburb. The man driving this one wasn't injured, but two women in the other one were taken to a hospital.

Enjoyed Cruise

On March 3, 1964 Mrs. Hazel Sutherland and Mrs. Mabel Potter of Russellville left Greencastle to join Mr. and Mrs. Lee Sutherland of Caldwell, New Jersey, for a cruise through the West Indies and South American ports.

They were on the Grace Line Cargoliner Santa Barbara with a passenger list of 38 people.

They made their first port at Santo Domingo in the Dominican Republic and visited the historical places where Christopher Columbus and his family had lived. This has been beautifully restored.

Next to the port of Maracaibo in Venezuela, here they took a motor boat to the famous oil fields.

On Sunday, March 15th, they were at the beautiful Dutch Island of Aruba and colorful sea waters.

In the port of Puerto Cabello, a beach party took place.

The last port was La Guayra where a planned tour was made to the capital of Venezuela, Caracas, where we saw the worlds

wonder race track and a ride up Mt. Avila in the Teleferico.

They sailed for the states in the early hours of March 18th. A few passengers stayed on deck to see the Southern Cross. The ship stopped in Baltimore and Philadelphia to reload cargo for the next shipment. They entered New York after 19 days of sailing.

Mrs. Sutherland stayed in Caldwell, N.J. for a visit with relatives.

Mrs. Potter took the Pennsylvania train for Indiana and arrived March 26 having had a different experience and a successful vacation.

SILENCER

NEW YORK (UPI) — The rat-tat-tat of pneumatic drill digging may soon be hushed to a whisper.

A converter developed in Britain for reducing the clamor of the drill is being supplied to pneumatic tool manufacturers.

The device is a sleeve which fits around standard pneumatic drills and changes the frequency of noises produced by the bit.

SPRAY SPREE

NEW YORK (UPI) — If you spray your hair, your walls,

clothes, the car's engine, and the pets, you're with it. This year, the spray items will come from 1.2 billion aerosol units, reports Union Carbide.

For the status seeker, there's a vermouthe aerosol for the very dry martini; the name brands of perfumes, colognes and air fresheners; and the auto scent that makes an old auto smell like new. For the nervous, there are tear gas pen sprays, fire alarms in aerosol cans and even fingerprint lifting sprays.

STATUS-SNOOZING

NEW YORK (UPI) — If you're looking for a status symbol with 500 years of tradition behind it, the king-size bed is for you. Large beds became a symbol of social arts in the 15th century, reports the Sleep Institute of the Spring Air Mattress Co.

"In those days, a prosperous man would spend an average of \$5,000 on a bed to show that he had arrived," said Ronald J. Shepherd, the firm's executive vice president.

STRIPES

NEW YORK (UPI) — Fashion seers report the pin-striped shirt is headed toward milady's wardrobe for spring.

The most popular silhouette: a floor-length lounging model with long sleeves and impeccable tailoring. The favored fabric: seersucker, a natural for the washing machine.

KEEP IT CLEAN

NEW YORK (UPI) — To remove tattle-tale grey, which is an accumulation of soap residue from your white wear, run the articles through the regular wash cycle with three tablespoons of sal soda concentrate home economists suggest.

Don't use soap or detergent until running the articles through a second wash cycle. Add more sal the second time, too. In laundry circles this process is referred to as stripping.

NEW YORK (UPI) — Surveys show American women generally like pearls in creamy pink tones. European women prefer the harder bluish tones. Both are rare.

STAMP OF DISAPPROVAL—Herbert Rosen, editor and publisher of "Philately," the magazine for stamp collectors, displays in New York a reproduction of a North Viet Nam postage stamp depicting a man and a woman soldier shooting at a helicopter with "U. S. Army" printed on its side. Rosen terms issuance of the stamp "a blatant act of hostility toward the United States and a gesture of undue crudity."

"The OAS and members of the OAS are the ones threatened," says Fulbright, "not the United States."

Rep. Armistead I. Selden, D-Ala., says Fulbright's proposals on Cuba are "a degree of aloof disregard unparalleled since the London Times was rationalizing the Hitler menace for Englishmen in the 1930s." Selden is Latin American Affairs chairman.

THAT "REVISED LOOK" policy toward Cuba, Panama and Red China advocated by Senate Foreign Relations Chairman J. William Fulbright, D-Ark., is drawing some irate disagreement in Congress. Here are some of the opinions. The Republicans charge Fulbright with "appeasement" for advocating that the U. S. get along with Cuba, revise the Panama treaty, and ease up on its attitude toward Red China.

Don't worry about anything serious going wrong with one of the new ones from Dodge. They call them "The Dependables"—because they are! The Dodge Boys are backed up with the strongest warranty on the market . . . 5 years or 50,000 miles.* But let's face it. New cars sometimes need little adjustments to get the "bugs" out of them. When you buy a new car from The Dodge Boys, you'll find that they'll bend over backwards to take care of any complaint you might have.

The Dodge Boys are a happy bunch, and they want you to be happy. And when you're happy, you might tell a neighbor. Then he might come and see Dodge, too, and that would make The Dodge Boys even happier. See how it works?

*HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1964 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. Required Maintenance: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

On Bridge Sheinwold

Quiet Bridge Play Is Most Impressive

By Alfred Sheinwold

Many years ago I admired fancy three-suit squeezes. For dessert, I might gobble up the kind of hand in which you must trump two aces and throw away a couple of kings.

Nowadays I like quiet plays better than anything else; something like the play in today's hand.

Opening lead — ♥ K

West opens the king of hearts and continues with the ace.

South ruffs, cashes the ace of spades and leads a spade to West. In an actual game West would have his next card on the table before you could say Ely Culbertson.

Yes, West would lead another heart, and South would make his contract.

South leads his singleton club, and West must step up with the ace. But what can West do then, poor thing?

If West leads a club or a heart, dummy can win and lead a diamond for a finesse. South gets back to dummy by leading his last trump to dummy's jack.

He takes another diamond, finesse, and the rest of his suit is good.

NO BELL RINGS

In an actual game nobody

rings a bell to tell the players

that a beautiful play is waiting

to be made. We ring bells in

this column, however. You should be able to spot the quiet play that defeats the contract.

When West is given his trump trick he must not lead back a third heart. Instead he quietly cashes the ace of clubs. Nothing dramatic about taking an ace, is there? Then West leads a third heart. South ruffs with his next-to-last trump and needs the rest of the tricks. He can get to dummy only once and can therefore take only one finesse through the king of diamonds. Down one.

RACING THE SUN

FARMINGDALE, N.Y. (UPI) — A traveler may not want to race the sun westward to Hawaii early in the 1970's, but future supersonic air trips can make the wish come true, according to one expert in the field of supersonic transport.

"Whether it is a Mach 2 plane (twice the speed of sound) or a Mach 3 or better," says John Stack, vice president and direc-

tor of engineering at Republic Aviation here, "you could leave London at 8 a.m., arrive in New York at 8 a.m., refuel and be in Los Angeles before 8 a.m., refuel again and be in Hawaii at 8 a.m."

Fish are an excellent source of complete and well-balanced protein, home economists report.

PLENTIFUL

NEW YORK (UPI) — Plenty of deep green broccoli now is on produce stands. The Western Growers Association reports this nutritious vegetable supplies the full amount of vitamin A and more than enough vitamin C when one cup full of it is eaten. Buy fresh and firm stalks with flower buds that are tightly closed in compact clusters.

BERMUDAGRASS

COLLEGE STATION, Tex. (UPI) — Coastal bermudagrass should be 14 to 16 inches high before it is harvested for hay, Texas A&M range specialists recommend.

Use of commercial fertilizers on Coastal bermuda can increase yields "beyond all expectations" without diminishing its rapid growth and drought resistance characteristics, the university has found.
